PROFESSIONAL SUMMARY

Python Full Stack Trainee with strong foundations in Python, Flask, MySQL, and frontend technologies, experienced in building end-to-end web applications. Passionate about developing scalable solutions and continuously improving skills in full-stack development and real-world software practices.

EDUCATION

B.Tech in Computer Science Engineering (AI & ML)
CGPA: 8.1 / 10

NRI Institute of Technology | 2025

EXPERIENCE

Python Full Stack Trainee | Codegnan IT Solutions

Oct 2025 – May 2026

Gained hands-on experience in Python Full Stack Development using Python, Flask, MySQL, HTML, CSS, Bootstrap, and JavaScript. Developed full-stack web applications with backend and frontend integration, authentication systems, CRUD operations, and responsive user interfaces. Collaborated in team-based environments while improving problem-solving and software development skills.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL
Backend: Flask, REST APIs
Tools: Git, GitHub, VS Code

Frontend: HTML5, CSS3, Bootstrap
Database: MySQL, SQLite
Concepts: OOP, DBMS, Problem Solving

PROJECTS

SmartCart – E-Commerce Web Application Live Demo: <https://balanjineyulusmartcart.pythonanywhere.com/user-login>

Tech Stack: Python, Flask, MySQL, HTML, CSS, JavaScript, Jinja2, Razorpay API

- Developed a full-stack e-commerce platform with product browsing, cart management, and seamless order placement functionality.
- Integrated Razorpay payment gateway to enable secure online transactions and smooth checkout experience.
- Implemented user authentication, session management, and role-based access to ensure secure and personalized user interactions.
- Designed and optimized MySQL database for product, user, and order management.
- Managed complete order lifecycle, including checkout, payment processing, and order tracking, with a responsive frontend UI.

Notes Management System

Live Demo: <https://balanjineyulunotes.pythonanywhere.com/>

Tech Stack: Python, Flask, SQLite, HTML, CSS, JavaScript, Jinja2

- Developed a secure notes management web application with user registration and login functionality.
- Implemented **CRUD operations** including creating, editing, deleting, and viewing notes.
- Designed responsive user interfaces using **HTML, CSS, JavaScript, and Jinja2** templates.
- Integrated Flask backend for handling routing, form validation, and note management features.

CERTIFICATIONS

- Python Certification — HackerRank
- SQL Certification — HackerRank
- HTML & CSS Certification — HackerRank

ACHIEVEMENTS & ACTIVITIES

- Built and deployed full-stack web applications using Flask and MySQL.
- Regularly practicing Python and Flask development through hands-on GitHub projects.
