OBJECTIVE

Highly motivated Computer Science graduate with skills in Python, React JS, and MySQL. Dedicated to applying my knowledge in software development and web applications. Seeking an opportunity to contribute to innovative and impactful projects.

EDUCATION

NRI Institute of Technology
B.Tech in Computer Science (AI & ML)

Andhra Pradesh
2021 – 2025

EXPERIENCE

Codegnan IT Solutions
Full Stack Python Trainee

Oct 2025 – Present
Hyderabad, Telangana

- Learning full stack development using Python, Flask, HTML, CSS, and JavaScript.
- Building web applications using Flask framework and MySQL database.
- Developing REST APIs and integrating frontend with backend systems.
- Working on real-time projects and improving problem solving skills.

PROJECTS

House Price Predictor Using Machine Learning | *Python, Pandas, Scikit-learn*

2024

- Built a house price prediction model using Linear Regression.
- Trained the model on datasets including features like size, location, and number of rooms.
- Used Python libraries such as Pandas and Scikit-learn for data preprocessing and modeling.

Anemia Prediction for COVID-19 Patients | *Machine Learning, React.js*

2025

- Collected and processed CBC dataset for training and testing the prediction model.
- Implemented data preprocessing and feature selection to improve model performance.
- Trained and evaluated the model using Scikit-learn and XGBoost libraries.
- Used evaluation metrics like Accuracy, Precision, Recall, and F1-score to measure performance.
- Developed a simple React.js interface to display prediction results and patient details.

TECHNICAL SKILLS

Languages: Python
Web Development: HTML, CSS, JAVASCRIPT
Database: MySQL
Machine Learning: Pandas, Scikit-learn, NumPy
Developer Tools: VS Code, Jupyter Notebook

CERTIFICATIONS

- Python Certification from HackerRank
- Java Full Stack Certification from HMI Engineering Services
- HTML & CSS Certification from HackerRank
- SQL Certification from HackerRank

LANGUAGES

- English
- Telugu
